WHY BUY

#### LX7 Drop Handlebar

Available on the S-Series bike, the LX7 is the market's first drop handlebar design creating the most adaptive handlebar with over seven hand positions and fore and aft adjustability. The LX7 offers the outdoor cyclists the opportunity to simulate all riding techniques in the indoor environment.

#### Indoor Cycling Computer™

The LIVESTRONG® by Matrix indoor cycling computer integrates individual feedback within a group dynamic. The new computer data transmission will give members even more control over their training by providing immediate feedback. Users are able to measure their progress and track their intensity while enjoying the benefits of riding in a group.

#### Dual Descent Water Bottle Holder

Available on the S-Series, the dual descent water bottle holder is within easy reach to keep users well hydrated throughout their ride.
