HEAT BATH

The internal heater, located next to the crystal or marble wall that provides the cabin with a touch of nobility and elegance, recreates the conditions of a Finnish sauna: temperature of 90°C and 10-20% relative humidity - conditions that guarantee fast and localized sweating.

AROMAS

The natural scent of durmast makes this heat bath even more enveloping, while a selection of delicate essences accompanies you towards newly fragrant experiences.

WELLNESS CIRCUITS

Four different choices based on the main wellness objectives. One touch to select your favourite circuit and enjoy a new level of pleasure. Twenty minutes immersed in a heat bath with colours, music and the olfactory benefits of the aromas.

COLOURS

The colour outlines the elegant lines of the slats, creating the ideal ambiance that best suits your mood. The light sources create emotional effects amplified by the reflections on the crystal or marble walls behind the heater.
