STEAM BATH SUPPLY

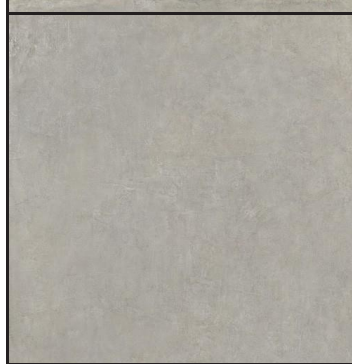

The structure is made of high density 30 kg / m³ sintered expanded polystyrene with modular elements, pre-shaped with computer-processed shapes. The structure is characterized by very high thermal insulation (0.035 W / mK), absolute impermeability and maximum durability. The material is also flame-retardant, non-toxic, hypoallergenic, non-polluting and does not contain CFCs or HCFCs. The dividing wall between the cabin and the technical compartment is included, the wall access door to the technical compartment complete with gaskets for a perfect seal. The floor has a slope towards the bottom of the cabin where a linear flush-to-floor channel with a drain well is already installed and covered with a tileable insert that makes it virtually invisible. Supplied accessories: steam generator; loudspeakers; recessed lighting system on the left corner of the wall realized with RGB strip led technology, included 100W power supply and RGB controller with remote control; technology for diffusion essences; tempered glass window sp. 8 mm composed of one fixed side door and one hinged door; design handle made of INOX white RAL9016 glossy color; dry-pressed porcelain stoneware slabs for interior and exterior cladding.

FINNISH SAUNA SUPPLY

Structure in beaded panels with insulating glass wool interlayer and aluminium foil covered internally with hemlock beads; the beads are installed vertically and are made of two different sections that are alternated to obtain an extremely modern aesthetic effect; - Frame consisting of uprights and crosspieces in solid Fir wood with a section of approximately 64x64 mm; - Hemlock wooden benches and head restraints. Supplied accessories: Headrest; hourglass; thermo-hygrometer; bucket and ladle; recessed lighting system on the left corner of the wall realized with RGB strip led technology, included 100W power supply and RGB controller with remote control; tempered glass window sp. 8 mm composed of one fixed side door and one hinged door; design handle made of INOX white RAL9016 glossy color for the exterior and HEMLOCK for the interior; dry-pressed porcelain stoneware slabs for internal covering of ceilings, floors, stove cabinets, side walls and external wall and ceiling cladding.
